Subject: BA QSO W7QQQ

Jack I have seen you from time to time on this list.. Thanks for the QSO
Tonight.. I tried to say that I had seen you on this list but the QRN/
QSB took me out.. Nice chat...thanks..Did not hear anyone else though,
all I could hear was you.....

Subject: Valves and stuff for sale

I have the following tubes

As I only want a few of these for my own use
I am offering the rest for sale

I have 60 Jan 7645 Twin tetrodes for sale
NIB/NOS in original Westinghouse Boxes
and would like \$ 3.00 U\$ each

or

5 for 12.00

10 for 20.00

I have 10 NIB/NOS Eimac/ Varian JAN 8167 / 4CX300A
Metal Ceramic tubes

These list for over \$200.00 each I would like \$ 55 U\$ each
or
2 for \$100.00 U\$
3 for \$145.00 U\$
4 for \$180.00 U\$

I have 80 NIB/NOS JAN 5719 miniature triodes
and would like \$ 2.50 U\$ each
or
5 for \$10.00 U\$
25 for 48.00 U\$
50 for \$90.00 U\$

I still have 480 NIB/NOS JAN 5933 valves
These are a military equivalent to the 807
Same base, pin out and electrical specifications

looking for \$6.00 U\$ each
or
4 for 20.00 U\$
10 for 45.00 U\$
50 for 200.00 U\$ (1 case)
100 for 375.00 U\$ (2 cases)

I have about 40 tube retainers
for these or other tubes of the same diameter
These were used to keep the tube in the socket
under rough service conditions..

cost you about 1.00 each

Metal Enclosed Relays

- - New time delay relays
Flange mount
Solder terminals
6.3 Volt heater
SPST N.O. 3A @ 250 VAC
your choice 60 Second or 85 Second version

\$ 5.00 each

- - NEW sealed metal case relay
Mil Spec 25267-A1 Class B8
4 point stud mount
Solder terminals
115VAC coil with internal 1/2 wave rectifier
Works ok at 48 VDC
4PDT 5 Amp @ 28 VDC or 115VAC up to 400 HZ
leach corp / Part # 9220 - 4186

\$ 20.00 each
\$ 30.00 for 2

TRW Cinch terminal strips
NEW - Part # 10-172-Y

\$5.00 for a box of 10 terminal strips

All prices are in US funds

Shipping costs are extra

Subject: Updated tube data

Hi all;

I have added some data on EL34/6CA7 on my pages at
<http://www.algonet.se/~janax/tubedata.htm>
Source is Philips 1958 data book.

I'm constantly updating the pages as soon as I find data on
useful tubes.

Enjoy!

Hi Rich,
Nice to meet you on last night on 7050 khz. W7EKB, Ken was in there but
qrn kept us from making it a threesome.

Seems like 20 meters would be a better place for BA's to meet in the
summer. Less noise and more coverage. Would 14.050 work?
Hope to cuagn. Now, back to work fixin up that ole Knight T-150
transmitter. Ha!

Bry,
By George, you're right. You must have been reading my mind tonight! I've got
a D-104 coming to use with my Knight T-150. I was just sitting here staring
at that connector and wondering what I was going to do. The mic I use now
has a 1/4" plug but the plug part unscrews leaving the correct part to screw
onto the connector on the rig. I really didn't want to remove that connector
from the Shure mic and put it on the D-104 but I figured I'd have to. You
just solved my problem! Thanks.!

Subject: AM Phone on 20 meters

Hi gang!

Is anyone active on 20 meters AM phone?
I have a Knight T-150 to get me started again in good soundin amplitude
modulation style! I've been monitoring 14.286 but haven't heard any
am'rs. Any suggestions?

Thanks!

Subject: AD4YH...

does anyone know his e-mail address?

I have heard him near 7050 for several nights, madly calling CQ Cwist. He
doesn't hear me I guess. How much power is he running ?

I am running 15 watts (AN/GRC-109)
